Congratulations! Your Chi-Card® in your purse, wallet or anywhere else close to you provides you with a continuous supply of Life Force.

It is a well-known fact that Life Force is the energy, which is necessary for any type of work toward enjoying personal change and manifestation of your desires, such as working with affirmations, using the law of attraction and vision boards.

Moreover, the pulsating Life Force from your Chi-Card® can be a significant help in your achieving of physical and mental skills, such as sports, fitness, weight loss, creativity, increased intelligence, and especially psychic skills, such as remote viewing as well as any other form of perception at a distance and many methods of action at a distance.

Your Chi-Card® can be a significant help for you to get much better results much faster, easier and much more reliably, and it can provide such secured success with any method that you choose in order to achieve positive permanent change.

There are two ways of you acquiring a Chi-Card®: You can purchase a laminated Chi-Card® either from a store or from one of our distributors, or you can order your Chi-Card® online, in which case a file will be sent to you, which you print and cut out. In fact, you can cut out three Chi-Cards, which you can arrange to provide you with the structural link to your setup for change and manifestation.

Once you received your Chi-Card®, you can feel the power of Life Force, or Chi energy, the same

## Meditation and Psychic skills

**Deep Meditation:** The Chi-Card® is a great help to enter the state of meditation. This is so, because the pulse of its flow of Life Force is set to the Alpha brainwave frequency, which induces this state rapidly. This is so, because this pulse of Life Force operates on your body and mind directly, instead by using the detours of light and sound (as in mind machines), which then are expected to have your mind develop the desired frequency.

**Autogenic Training:** the autogenic state is much more effective and deeper than entering relatively light hypnoid states, coached by the typical run-of-the-mill "professional hypnotists." Most importantly, you can remain in total control during this state of self-induced (auto-genic) and self-controlled hypnosis. Mastery of AT is ideal for the development of any further development of physical, mental and psychic skills. When you are carrying your chi-card with you, entering the state of AT is much easier and you can master it within a few hours rather than several weeks. Learn more about it at [www.autogenic-training.org](http://www.autogenic-training.org)

Ideally you should master Autogenic Training before you acquire other skills.

You can find success strategies for your vision boards, affirmations and proper use of the law of attraction in the manual for chi generators® in [www.hscti.net/manual](http://www.hscti.net/manual) or you can download it from [www.akor.cc](http://www.akor.cc)

Here is another use of a vision board: This time the water is optimized, i.e., all negative information has been removed and it is charged with Life Force, or Chi, and at the same time it is charged with the energy of the affirmations on the vision board, in this example for weight loss.

In the example above, again a vision board is set up to use the law of attraction quite literally: It is a sex drink.

In both cases the glass with water is next to the vision board. Naturally, such charging of water or any other drink can be done at any distance from the vision board. You have gained this experience already when performing the free Chi-Card® test.

way as you did already before acquiring your Chi-Card®: Hold the center of your palm about 1-3 inches above the chi-card® and feel the energy.

Your next step is to charge water: Take a glass of good water - if ice-cold, you may not notice the difference as much as when fresh water. Take a sip, put the glass onto the Chi-Card® for a minute or two, then taste again. It tastes much better, because you have just removed the negative information from the water, plus you super charged it with beneficial Life Force. You can get a Chi-Coaster® to charge water and other drinks, and you can attach it to any type of water dispenser.

Naturally, you can also charge food and supplements with your Chi-Card® or Chi-Coaster®, and they will be assimilated much better. Simply put some of the supplements on your Chi-Card® and connect them to yourself with the help of a unique structural link: one remains with the Chi-Card® and supplements, while you are carrying the second one with you

# Methods of Manifestation

You can use a huge variety of methods to achieve personal change, and all of them will work much better and faster, when enhanced with the continuous flow of Chi, or Life Force, which your Chi-Card® and Chi-Coaster® are providing.

The manifestation software (examples above: the Basic manifestation program and the classic manifestation program) and especially the super manifestation software (below) make the setting up of vision-boards, affirmations and applications of the law of attraction as easy as 1-2-3.

On the next page you can see a typical vision-board setup, which has been produced with the basic manifestation program, to secure success of a negotiation in real estate, either by a broker, by a seller or by a buyer. The Chi-Card® is on the

vision board, while the structural link is a unique diagram. One of these diagrams is on the vision board while the other one is with the person who gets energized.

Below this, you see a vision-board setup for a first step towards general success in business: the capability to a thorough analysis of the situation. Here too the Chi-Card® is on the vision board and the person for whom it is set up carries one of the unique structural links in the purse or wallet.
